Market Overview

2M
Total EVs Sold (FY22-FY24)

93.91%
2-Year CAGR (FY22->FY24)

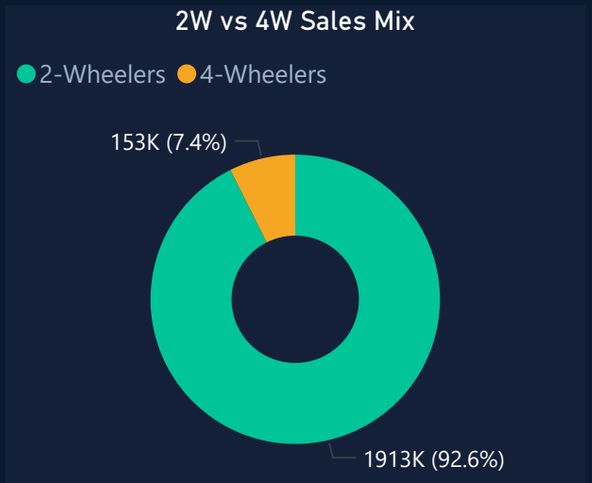
4.81%
EV Penetration Rate FY2024

185.96%
Growth FY22 -> FY23

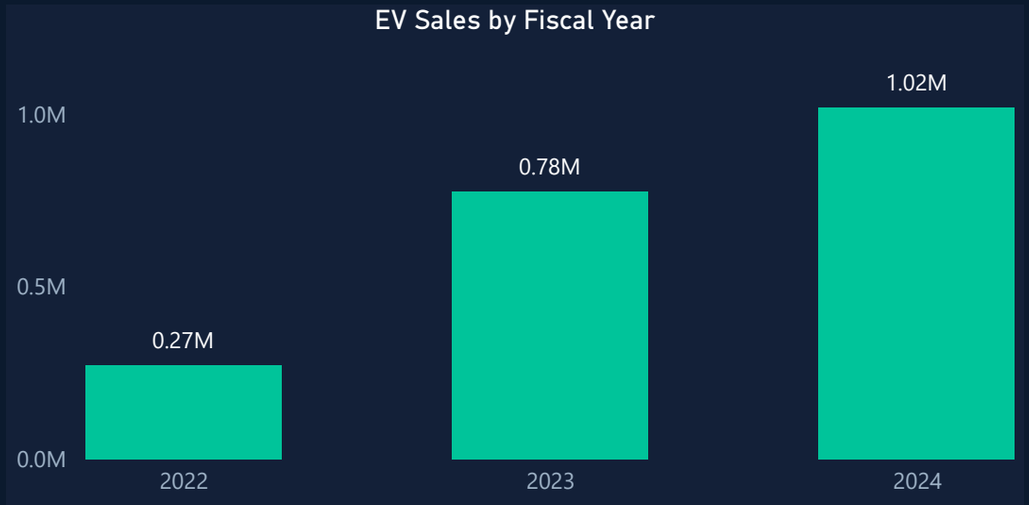
31.50%
Growth FY23 -> FY24

Key Insight
2M+ EVs sold across FY2022–FY2024. Growth slowed from 186% to 31% — market is maturing, not stalling.

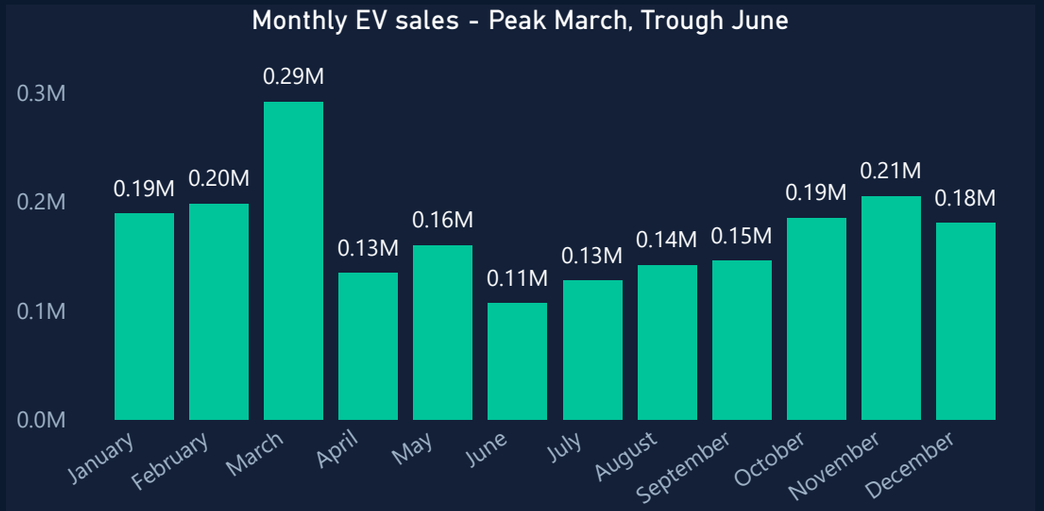
95 in every 100 vehicles sold in India is still non-electric.



2-Wheelers dominate volume



Market grew 4x in just 2 years



March peak driven by fiscal year-end purchases

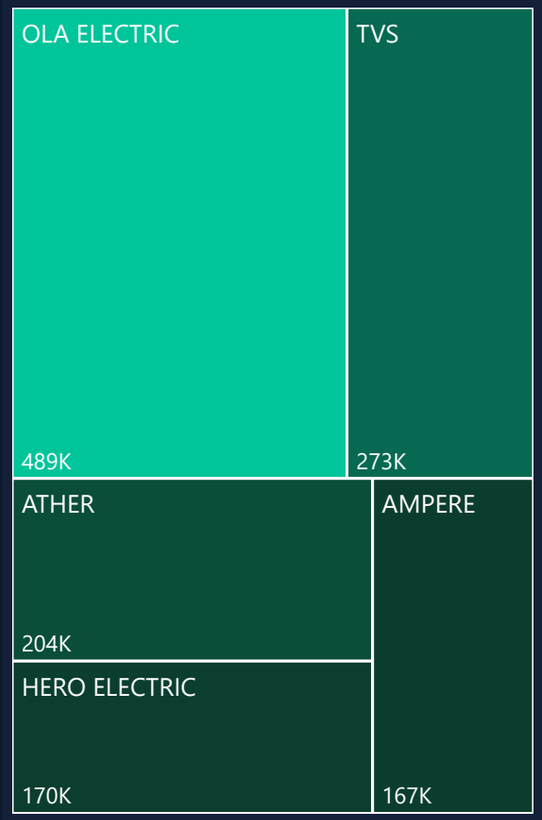
Maker Analysis — 2W vs 4W Segment Battle

1.91M	153K	92.17%	116.28%	1.41
Total EV Sales 2W	4W Total Units	2W CAGR FY22→FY24	4W CAGR FY22→FY24	Revenue 4W vs 2W ratio

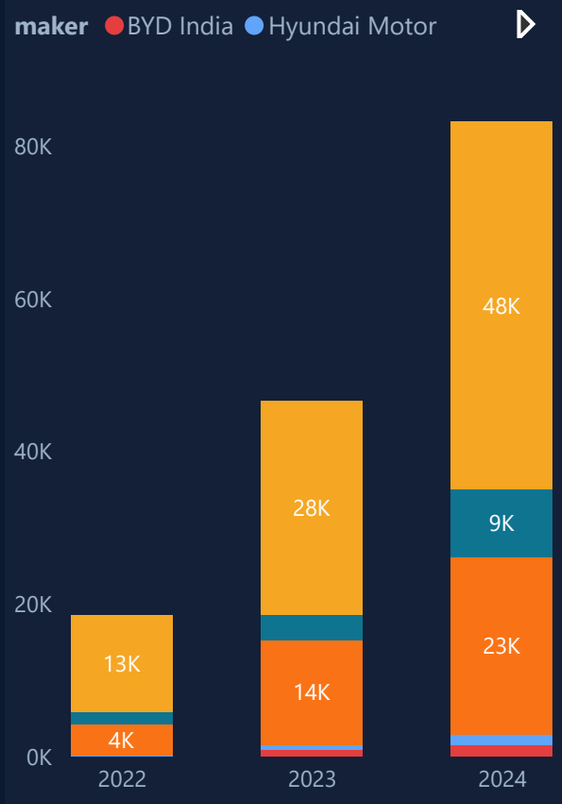
28.13%
FY23 -> FY24 Growth(2W)

83.08%
FY23 -> FY24 Growth(4W)

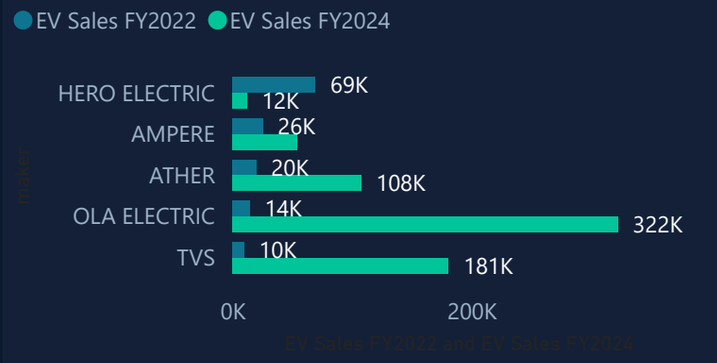
2W Market Share — Top 5 Makers



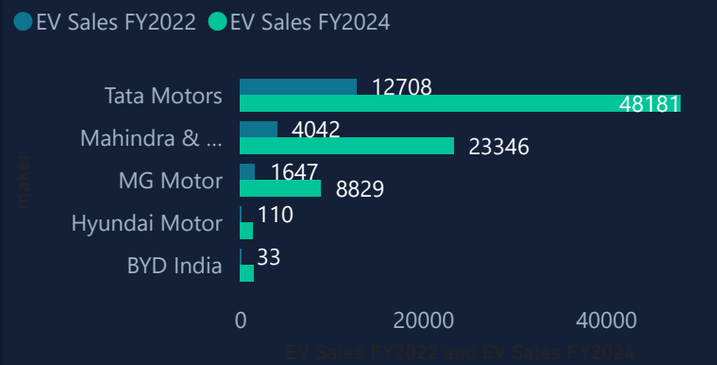
4W Maker Growth by Fiscal Year



2W Makers — FY2022 vs FY2024



4W Makers — FY2022 vs FY2024



Segment Verdict

2W is crowded — OLA dominates at 322K units. TVS and Ather rising fast. No room for a new entrant.

4W is still wide open: Tata leads but only 48K units total
116% CAGR vs 92% for 2W
83% YoY growth in FY24 vs 28% for 2W

The 4W segment is the smarter entry point.
Low volume today — steep trajectory tomorrow.

State Analysis — Where Is India Buying EVs?

Top State — 2W Penetration FY2024

Goa

17.99%

Top State — 4W Penetration FY2024

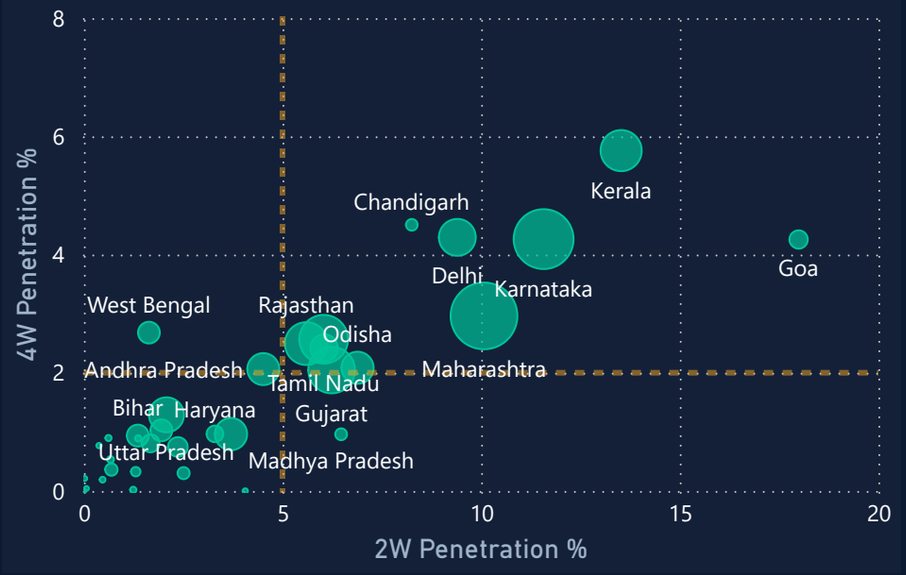
Kerala

5.76%

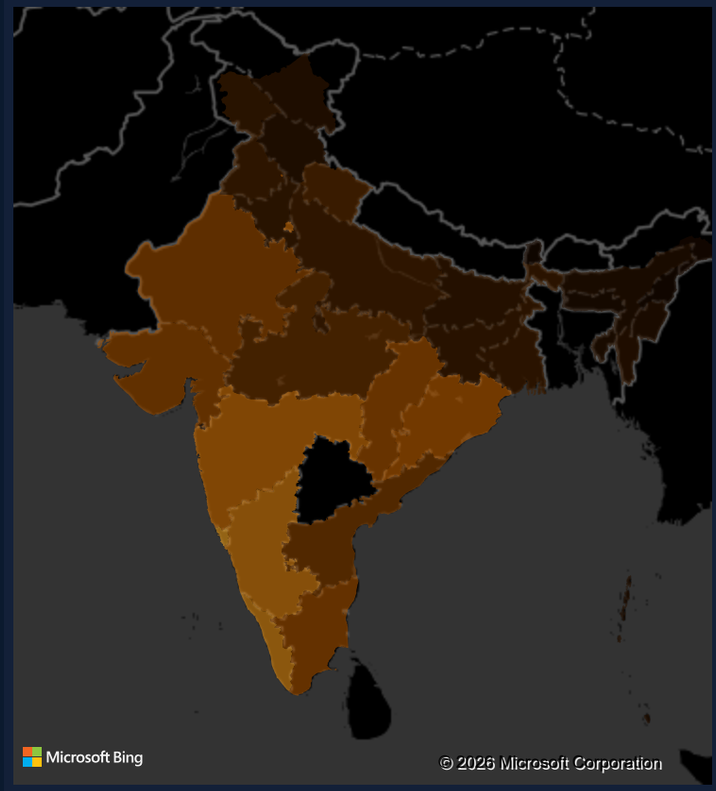
States with Declining EV Penetration (FY22→FY24)

State	Vehicle Category	Penetration Rate FY2024 %	Penetration Change FY22 to FY24
Andaman & Nicobar Island	4-Wheelers	0.77%	-1.11
Ladakh	2-Wheelers	4.06%	-0.41

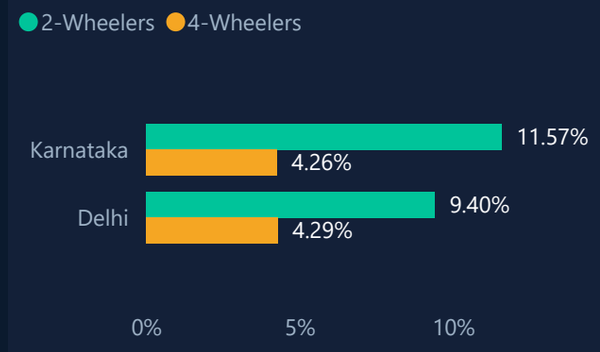
State EV Penetration — 2W vs 4W (FY2024)



Southern & Western India Lead EV Adoption — FY2024



Delhi vs Karnataka — EV Penetration FY2024



Priority Markets — Top Right Quadrant

Goa, Kerala, Karnataka and Delhi lead in BOTH 2W and 4W penetration simultaneously. Bubble size = total EV volume sold.

Maharashtra and Karnataka offer the best combination of high penetration AND high volume — making them the strongest entry markets.

Policy vs Demand

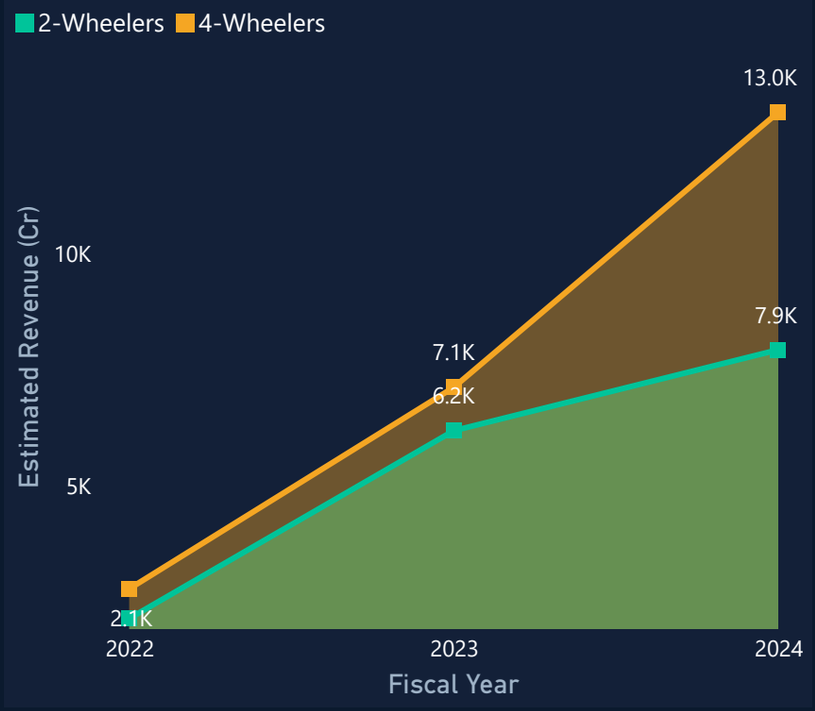
Delhi has India's most aggressive EV subsidies (₹30,000 direct incentive) yet Karnataka leads on 2W penetration — 11.57% vs 9.40%.

Organic demand from Bengaluru's tech economy outperforms subsidy-driven adoption.

The Opportunity — Why Now Is the Right Time to Enter

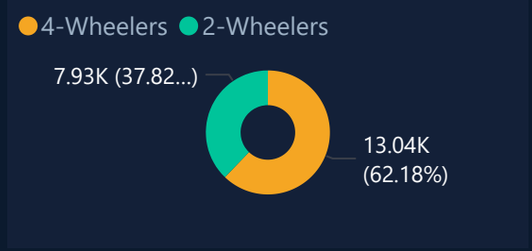
20,963.03	324.92%	269.28%	367.79%
Total EV Revenue FY2024 (₹ Cr)	Revenue Growth FY22 -> FY24	2W Revenue Growth FY22→FY24	4W Revenue Growth FY22→FY24

4W Revenue Overtaking 2W — FY2022 to FY2024



4W revenue grew 368% vs 269% for 2W. Despite lower volume, 4W now generates 62% of total EV revenue in FY2024.

2W vs 4W Revenue Mix



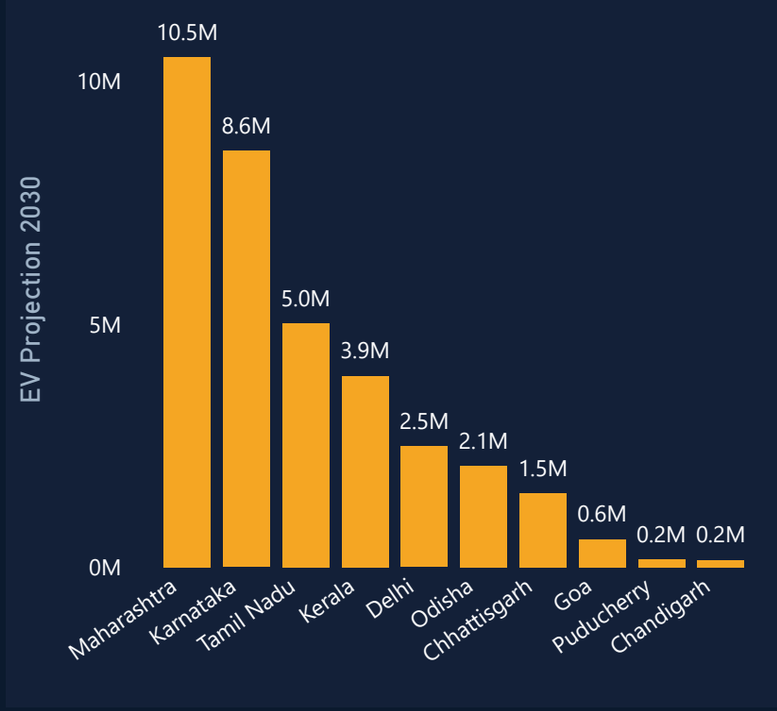
The Opportunity — Enter Now

4W is the smarter bet:
116% CAGR vs 92% for 2W
62% of total revenue despite lower volume
Market still early — only 153K units sold

Priority markets by 2030:
Maharashtra → 10.5M EVs
Karnataka → 8.6M EVs
Kerala → 3.9M EVs

The window is open — enter before it consolidates.

Projected EV Sales by 2030 — Top 10 States



** Assumes constant CAGR from FY2022–FY2024.*
Actual growth will likely be lower as market matures.
